

Department of Veterans Affairs

§ 52.120

(2) A comprehensive care plan must be—

(i) Developed within 21 calendar days from the date of the adult day care enrollment and after completion of the comprehensive assessment;

(ii) Assigned to one team member for the accountability of coordinating the completion of the interdisciplinary plan;

(iii) Prepared by an interdisciplinary team that includes the primary physician, a registered nurse with responsibility for the participant, social worker, recreational therapist and other appropriate staff in disciplines as determined by the participant's needs, the participation of the participant, and the participant's family or the participant's legal representative; and

(iv) Periodically reviewed and revised by a team of qualified persons after each assessment.

(3) The services provided or arranged by the facility must—

(i) Meet professional standards of quality; and

(ii) Be provided by qualified persons in accordance with each participant's written plan of care.

(f) *Discharge summary.* Prior to discharging a participant, the program management must prepare a discharge summary that includes—

(1) A recapitulation of the participant's care;

(2) A summary of the participant's status at the time of the discharge to include items in paragraph (c)(2) of this section; and

(3) A discharge/transition plan related to changes in service needs and changes in functional status that prompted another level of care.

(Authority: 38 U.S.C. 101, 501, 1741-1743)

(The Office of Management and Budget has approved the information collection requirements in this paragraph under control number 2900-0160)

§ 52.120 Quality of care.

Each participant must receive, and the program management must provide, the necessary care and services to attain or maintain the highest practicable physical, mental, and psychosocial well-being, in accordance with the comprehensive assessment and plan of care.

(a) *Reporting of sentinel events.* (1) Definition. A *sentinel event* is an adverse event that results in the loss of life or limb or permanent loss of function.

(2) Examples of sentinel events are as follows:

(i) Any participant death, paralysis, coma or other major permanent loss of function associated with a medication error; or

(ii) Any suicide or attempted suicide of a participant, including suicides following elopement (unauthorized departure) from the program; or

(iii) Any elopement of a participant from the program resulting in a death or a major permanent loss of function; or

(iv) Any procedure or clinical intervention, including restraints, that result in death or a major permanent loss of function; or

(v) Assault, homicide or other crime resulting in a participant's death or major permanent loss of function; or

(vi) A participant's fall that results in death or major permanent loss of function as a direct result of the injuries sustained in the fall; or

(vii) A serious injury requiring hospitalization.

(3) The program management must report sentinel events to the director of the VA medical center of jurisdiction within 24 hours of identification. The director of the VA medical center of jurisdiction must report sentinel events to the VA Network Director (10N1-22), Assistant Deputy Under Secretary for Health (10N), and Chief Consultant, Geriatrics and Extended Care Strategic Healthcare Group (114), within 24 hours of identification and/or notification by the State home.

(4) The program management must establish a mechanism to review and analyze a sentinel event resulting in a written report no later than 10 working days following the event. The purpose of the review and analysis of a sentinel event in an adult day health care program is to prevent future injuries to residents, visitors, and personnel.

(b) *Activities of daily living.* Based on the comprehensive assessment of a resident, the program management must ensure that—

(1) A participant's abilities in activities of daily living do not diminish unless circumstances of the individual's clinical condition demonstrate that diminution was unavoidable. This includes the participant's ability to—

- (i) Bathe, dress, and groom;
- (ii) Transfer and ambulate;
- (iii) Toilet; and
- (iv) Eat.

(2) A participant is given the appropriate treatment and services to maintain or improve his or her abilities specified in paragraph (b)(1) of this section.

(3) A participant who is unable to carry out activities of daily living receives the necessary services to maintain good nutrition, hydration, grooming, personal and oral hygiene, mobility, and bladder and bowel elimination.

(c) *Vision and hearing.* To ensure that participants receive proper treatment and assistive devices to maintain vision and hearing abilities, the program management must, if necessary, assist the participant and family—

- (1) In making appointments; and

(2) Arranging for transportation to and from the office of a practitioner specializing in the treatment of vision or hearing impairment or the office of a professional specializing in the provision of vision or hearing assistive devices.

(d) *Pressure ulcers.* Based on the comprehensive assessment of a participant, the program management must ensure that—

(1) A participant who enters the program without pressure ulcers does not develop pressure ulcers unless the individual's clinical condition demonstrates that they were unavoidable; and

(2) A participant having pressure ulcers receives necessary treatment and services to promote healing, prevent infection and prevent new ulcers from developing.

(e) *Urinary and fecal incontinence.* Based on the participant's comprehensive assessment, the program management must ensure that—

(1) A participant who enters the program without an indwelling catheter is not catheterized unless the participant's clinical condition demonstrates that catheterization was necessary;

(2) A participant who is incontinent of urine receives appropriate treatment and services to prevent urinary tract infections and to restore as much normal bladder function as possible; and

(3) A participant who has persistent fecal incontinence receives appropriate treatment and services to treat reversible causes and to restore as much normal bowel function as possible.

(f) *Range of motion.* Based on the comprehensive assessment of a participant, the program management must ensure that—

(1) A participant who enters the program without a limited range of motion does not experience reduction in range of motion unless the participant's clinical condition demonstrates that a reduction in range of motion is unavoidable; and

(2) A participant with a limited range of motion receives appropriate treatment and services to increase range of motion and/or to prevent further decrease in range of motion.

(g) *Mental and psychosocial functioning.* Based on the comprehensive assessment of a participant, the program management must ensure that a participant who displays mental or psychosocial adjustment difficulty, receives appropriate treatment and services to correct the assessed problem.

(h) *Accidents.* The program management must ensure that—

(1) The participant environment remains as free of accident hazards as is possible; and

(2) Each participant receives adequate supervision and assistance devices to prevent accidents.

(i) *Nutrition.* Based on a participant's comprehensive assessment, the program management must ensure, by working with the family, that a participant—

(1) Maintains acceptable parameters of nutritional status, such as body weight and protein levels, unless the participant's clinical condition demonstrates that this is not possible; and

(2) Receives a therapeutic diet when a nutritional deficiency is identified.

(j) *Hydration.* The program management must provide each participant with sufficient fluid intake during the day to maintain proper hydration and health.

Department of Veterans Affairs

§ 52.140

(k) *Unnecessary drugs*—(1) *General*. Each participant's drug regimen must be free from unnecessary drugs. An unnecessary drug is any drug when used:

- (i) In excessive dose (including duplicate drug therapy); or
- (ii) For excessive duration; or
- (iii) Without adequate monitoring; or
- (iv) Without adequate indications for its use; or

(v) In the presence of adverse consequences which indicate the dose should be reduced or discontinued; or

(vi) Any combinations of the reasons in paragraphs (k)(1)(i) through (v) of this section.

(2) *Antipsychotic drugs*. Based on a comprehensive assessment of a participant, the program management must ensure that—

(i) Participants who have not used antipsychotic drugs are not given these drugs unless antipsychotic drug therapy is necessary to treat a specific condition as diagnosed by the primary physician and documented in the clinical record; and

(ii) Participants who use antipsychotic drugs receive gradual dose reductions, and behavioral interventions, unless clinically contraindicated, in an effort to discontinue these drugs.

(1) *Medication errors*. The program management must ensure that—

(1) Medication errors are identified and reviewed on a timely basis; and

(2) Strategies for preventing medication errors and adverse reactions are implemented.

(The Office of Management and Budget has approved the information collection requirements in this paragraph under control number 2900–0160)

§ 52.130 Nursing services.

The program management must provide an organized nursing service with a sufficient number of qualified nursing personnel to meet the total nursing care needs, as determined by participant assessment and individualized comprehensive plans of care, of all participants in the program.

(a) There must be at least one registered nurse on duty each day of operation of the adult day health care program. This nurse must be currently li-

censed by the State and must have, in writing, administrative authority, responsibility, and accountability for the functions, activities, and training of the nursing and program assistants. VA recommends that this nurse be a geriatric nurse practitioner or a clinical nurse specialist.

(b) The number and level of nursing staff is determined by the authorized capacity of participants and the nursing care needs of the participants.

(c) Nurse staffing must be adequate for meeting the standards of this part.

(Authority: 38 U.S.C. 101, 501, 1741–1743)

(The Office of Management and Budget has approved the information collection requirements in this paragraph under control number 2900–0160)

§ 52.140 Dietary services.

The program management must provide each participant with a nourishing, palatable, well-balanced meal that proportionally meets the daily nutritional and special dietary needs of each participant.

(a) *Food and nutritional services*. The program management provides and/or contracts with a food service entity and provides and/or contracts sufficient support personnel competent to carry out the functions of the food service.

(1) The program management must employ a qualified dietitian either part-time or on a contract consultant basis to provide nutritional guidance.

(2) A qualified dietitian is one who is qualified based upon registration by the Commission on Dietetic Registration of the American Dietetic Association.

(3) The dietitian must—

(i) Conduct participant nutritional assessments and recommend nutritional intervention as appropriate.

(ii) Consult and provide nutrition education to participants, family/caregivers, and program staff as needed.

(iii) Consult and provide education and training to the food service staff.

(iv) Monitor and evaluate participants receiving enteral tube feedings and parenteral line solutions, and recommend changes as appropriate.

(b) *Menus and nutritional adequacy*. (1) The participant's total dietary intake is of concern but is not the adult day health care program's responsibility.
